

MOHAMED ALI SAYED

Flutter Developer

Beni Suef, Egypt | 01017480870 | ma8510007@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Flutter Developer with hands-on experience building cross-platform mobile apps using Flutter, Dart, and Firebase. Skilled in Cubit/Bloc/GetX state management, RESTful APIs, and Clean Architecture, with a track record of refactoring production code and resolving stability issues. Holds a BSc in Computer Science and Artificial Intelligence.

EDUCATION

Bachelor of Science in Computer Science and Artificial Intelligence Graduated 2026

Beni Suef University, Beni Suef, Egypt | GPA: 3.3 / 4.0

Relevant Coursework: Algorithms, Data Structures, Object-Oriented Programming, Artificial Intelligence

PROFESSIONAL EXPERIENCE

Flutter Developer Intern | JBR Digital Oct 2025

- Contributed to Heart Emergency, a Flutter-based cardiac response app, working across the existing codebase with the development team.
- Refactored several existing screens for improved readability, maintainability, and adherence to clean coding practices.
- Implemented dynamic, device-based theming (system light/dark mode) and diagnosed/resolved logic bugs across core app flows using Git-based version control.

Flutter Development Trainee | ITI Summer Training & GDG on Campus Al-Azhar 6 Months

- Gained proficiency in Firebase integration (Auth, Firestore) and Bloc state management (ITI); learned UI/UX best practices and backend/API integration (GDG).

PROJECTS

Monqez (منقذ) — Blood Donation Platform · Graduation Project [\(Repository\)](#)

- Built a full-featured Flutter blood-donor platform using Clean Architecture (data/domain/presentation) across 14+ feature modules, connecting donors with donation centers, campaigns, and emergency blood appeals.
- Implemented Google Maps-based center discovery, real-time appointment booking with slot capacity validation, and a gamification system (points, 13 badges, leaderboards).
- Integrated Firebase Cloud Messaging push notifications and an AI chatbot (Google Gemini); delivered bilingual (Arabic/English, RTL) UI with JWT auth and automatic token refresh.

Tech Stack: Flutter, Dart, Cubit/Bloc, Dio, Retrofit, Firebase (FCM), Google Maps, Clean Architecture

Next Step — Career/Job Matching App [\(Repository\)](#)

- Built a scalable Flutter app foundation using GetX for state management/routing, Supabase for backend services, and Dio for networking.
- Implemented secure local storage (Flutter Secure Storage, Shared Preferences) and a fully responsive UI across mobile, web, and desktop with flutter_screenutil.

Tech Stack: Flutter, Dart, GetX, Supabase, Dio, Flutter Secure Storage

Additional Projects

- [E-Commerce App](#): seamless online shopping experience with Firebase-backed checkout flow.
- [Spotify Clone](#): music streaming app with Firebase Auth, Firestore-backed playlists/favorites, and Cubit-managed player state.
- [e-Care](#): healthcare/patient management app built with Clean Architecture, Cubit, and Retrofit/Dio networking (team project).
- [Bolt — Supply Chain App](#): centralized Flutter platform for procurement, inventory, and logistics management (RESTful APIs).

SKILLS, ACTIVITIES & INTERESTS

- Languages:** Arabic (Native), English (Good proficiency)
- Mobile Development:** Flutter (Cross-Platform), Android (Native), iOS (via Flutter)
- State Management:** Cubit, Bloc, GetX, Provider
- Backend & APIs:** Firebase (Auth, Firestore, FCM), Supabase, RESTful APIs, Dio, Retrofit | Clean Architecture, MVVM, OOP
- Tools & Storage:** Git, GitHub, Android Studio, Postman, Figma, Google Maps API, Hive, Shared Preferences, Flutter Secure Storage
- UI/UX:** Material Design, Responsive & Adaptive UI, Localization (Arabic/English, RTL)
- Soft Skills:** Problem-solving, Time management, Communication, Adaptability, Attention to detail, Agile collaboration, CI/CD tools (GitHub Actions, Fastlane)

CERTIFICATES

- ITI — Mobile Development via Flutter, 2024
- GDG on Campus Al-Azhar — Flutter Development Training
